Vault Map

Folder	Purpose	Use it when
00_Start_Here	dashboard, research context and navigation	first
01_Plan	exact 2-day/3-day schedules and exam execution	before study session
02_Aptitude	quant, English, reasoning, formulas and drills	aptitude revision
03_Technical	all listed technical topics, quick recall and drill	technical revision
04_Pseudocode	syntax, dry-run process, traps and questions	pseudocode speed practice
05_Coding	problem-selection method, patterns and original problems	coding block
06_Gamified_Assessment	planning/memory/deduction/numeracy game methods	game prep
07_PYQ_Research	sources, confidence limits and PYQ-derived drills	understand what repeats
08_Timed_Mocks	full 80-MCQ simulation plus two coding prompts	final simulation
09_Revision	flashcards and last-hour sheet	final day
10_Templates	editable error log and daily tracker	after every practice
99_Sources	direct research-source links	verify research

Recommended click path

[[00_Start_Here/Dashboard|Dashboard]] → plan → topic note → drill → [[10_Templates/Error_Log|error log]] → timed mock → revision sheet.

[[00_Start_Here/Dashboard|Back to dashboard]]
