

Final Revision Checklist

The evening before

- ☐ Complete one timed mock.
- ☐ Review every wrong and guessed answer.
- ☐ Re-read only linked error-log notes.
- ☐ Read [\[\[09_Revision/Last_Hour_Cheat_Sheet|last-hour cheat sheet\]\]](#).
- ☐ Do one easy coding problem in your selected language.
- ☐ Verify browser, device, ID and internet requirements.
- ☐ Stop studying early enough to sleep.

Immediately before

- ☐ Read input/output instructions.
- ☐ Confirm negative marking and back-navigation rules.
- ☐ Keep time visible.
- ☐ Decide "easy first, marked second."
- ☐ Stay calm after any difficult question.

After mock review

If score is low because of:

Error type	Repair
Formula forgotten	read formula sheet twice daily
Concept unknown	read only the linked topic section, then solve three questions
Arithmetic slip	slow down 5 seconds and estimate answer
Misread wording	underline "not", "only", "best", "worst"
Too slow	first-pass skip discipline
Code bug	make an edge-case checklist before coding
